About **mutuo**

In the UK, Mutuo brings together different types of co-operative and mutual business to ensure that they are better understood by government and policymakers.

By working together in this way, member owned firms have achieved a greater impact, resulting in increased business success.

By bringing together mutual business leaders from across the globe, we can provide a real opportunity to develop and share strategies for future growth.

Previous study visits:

Boston and Harvard, April 2011
Singapore, July 2011
Washington DC, June 2012

What this has meant for UK mutuals:

- Mutuo has built a cross-party consensus in favour of mutuals and co-operatives and has driven the mutual message to the heart of Government
- Many new mutuals have been established in health, education and local government sectors
- There are 2 million more mutual members as a result of our work
- Through the Ownership Commission, Mutuo has placed mutuals at the heart of the debate on corporate ownership
